

# SPOT LIGHT

## PIXI PRO PHAM1441XLET-1809

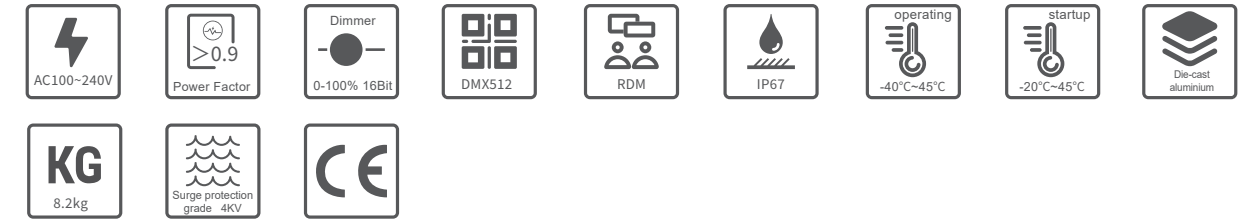

PIXI PRO adopts the new RGLB four-in-one light source, with intelligent temperature control system, high color saturation, excellent color mixing effect, creative DMX dimming technology, which help architectures to present more artistic effect. With advanced RDM functions, the new spot can provide the real-time feedback for malfunction and working status, reducing the cost for troubleshooting and maintenance. With color consistency system 3.0, the product can have 24 preset colors to make the color effect quickly and precise, also has CCT function from 1800k to 10000k, to achieve different color temperature effect for clients. Anyway with this new system, we can keep the different batch production with the same colors.
